

# Kush Montessori Nursery

## Parents Partnership Policy

### **Policy Statement**

Kush Montessori recognises that parents and carers are a child's first and most enduring educators. We are committed to working in close partnership with parents to support children's learning, development, wellbeing, and safety in line with the Early Years Foundation Stage (EYFS).

### **Aims**

- Build positive relationships with parents
- Share information about children's development
- Involve parents in learning
- Maintain open communication
- Meet individual needs collaboratively

### **Key Person System**

Each child is assigned a Key Person who works closely with families, provides updates, and supports development.

### **Information Sharing**

Information is shared via daily feedback, learning journals, meetings, and progress checks. Parents are encouraged to share updates from home.

### **Accessibility of Policy**

This Parents Partnership Policy is available to all parents upon registration and on request in print or electronic format.

### **Inclusive Communication**

We provide translated materials, interpreters, and flexible meetings where possible to ensure all families can participate.
